

ROYAL REFLECTIONS: DISCOVER YOUR DYNASTY THROUGH ANCIENT ATTIRE

Presented by Khor Suki

PURPOSE

The purpose of this website is to educate users on the evolution of Chinese court attire through an engaging and interactive digital experience.

We chose this theme to:

- Showcase the beauty and symbolism of traditional clothing across dynasties.
- Make history accessible and fun through a personality-style quiz.
- Create a visually rich journey that helps users learn by exploring, not just reading.
- Use interactive tools to connect historical identity with modern engagement.

CONCEPT

Story:

Inspired by the beauty and symbolism of traditional Chinese clothing, we created this website to explore how fashion reflected power, identity, and culture in different dynasties.

We wanted to make history feel alive – not just read, but experienced.

Target Audience:

- High school & university students studying culture or history.
- Visitors interested in traditional Chinese aesthetics.
- Teachers looking for interactive learning materials.

DEVELOPMENT - TOOLS

- HTML for webpage structure.
- CSS for beautiful styling (gradient background, animations, fonts).
- JavaScript for interactive quiz logic and dynamic results.
- Google Fonts for an elegant text style.
- Audio Player to enhance mood and engagement.

DEVELOPMENT – KEY FEATURES

- Personality Quiz: Matches users with a dynasty based on fashion and values.
- Background Image: Creates an immersive, historical mood.
- Music Integration: Adds cultural ambiance.
- Interactive Buttons: Engaging and responsive user flow.
- Navigation Links: Seamless movement between pages ("Back", "Know More").
